

Four Mile Run Stormwater Improvement Project

Early Action Projects Walking Tour

25 September 2019 at 5:30pm, Schenley Park Overlook

The Pittsburgh Water and Sewer Authority invites you to learn about two early action projects that will be implemented in Schenley Park to quickly address runoff from Overlook Drive and the Bridle Trail that contributes to flooding issues experienced by homeowners in the Naylor Street area of The Run in Greenfield.

The projects, which were first introduced at a public meeting on 20 June 2019, will be implemented this fall. The walking tour shows the areas that will be constructed and discuss relevant issues related to stormwater and park ecology.

For more information or to ask a question, please visit:

www.4mr.org

Where: Schenley Overlook Turnaround on Overlook Dr.

When: Meet at 5:30pm

Tour starts at 5:45pm

Sundown is at 7:12pm

Early Action Projects Tour

- 1 Introduction of Early Action Projects
Discussion of tree protection during construction and Oak Wilt prevention
- 2 Discussion of Early Action Projects design and how they will function
Discussion of how this fits into the Parks Masterplan
- 3 Additional discussion of project design and anticipated construction impacts
Discussion of how invasive species and ecological degradation impact runoff

The tour will be followed by an optional guided to discuss other stormwater issues along the Bridle Trail.
